

# COMPANY INTRODUCTION

曜凌光電股份有限公司  
RAYSTAR OPTRONICS, INC.

• 2023- 03

## Group Introduction

# Group Overview

**Established**

**Oct 1998  
Taiwan**

**Founder**

**Dr.  
Venson  
Liao**

**Group Capital**

**US\$ 43.37  
Million**

**Employee**

**1,130**

# Vision & Mission

## 【 Vision 】

The world's leading brand of industrial display solutions.

## 【 Mission 】

Create the most significant contribution to shareholders, employees, society, and the environment, and continue sustainable development.

## 【 Core Value 】

Comply with the code of ethics, conserve good moral character, and observe the law.

## 【 Culture 】

Trust, Innovation, Technology & Sustainability.

# Awards

Taiwan Excellence Award 2021  
CTSP Innovative Product Award 2021

Taiwan Excellence Award 2022  
CTSP Innovative Product Award 2022  
National Manager Excellence Award 2022  
Workplace Work Equal Rights Excellent Institution Award 2022.

# Raystar Optronics, Inc

- ✓ Founded in 2007
- ✓ PMOLED Display Manufacturer
- ✓ Small to medium sized display.
- ✓ OLED modules, STN/FSTN LCM, TFT
- ✓ System Integrated Solution
- ✓ Smart Display
- ✓ Custom Solution

# RAYSTAR

## OLED Production lines

The image shows a vast, brightly lit manufacturing facility with a yellowish tint. The ceiling is high with a grid of fluorescent lights. On the left, there are large, white, rectangular processing units with various pipes and valves. In the center and right, there are more complex machinery and equipment. A person wearing a full-body white cleanroom suit is walking away from the camera towards the right side of the frame. The floor is light-colored with some square ventilation grates.

# **OLED Manufacturing Facility**

Location : Central Taiwan Science Park, Taiwan

Paid-in Capital : US\$ 14.49 Million

OLED Panel Production

Since 2007

# OLED Lithography

# Sputter Facilities

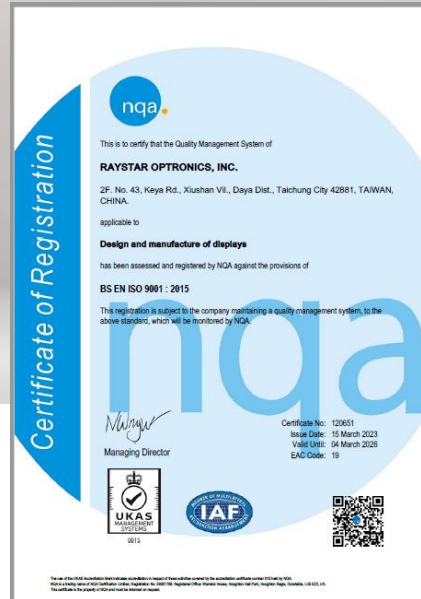

# OLED Evaporation

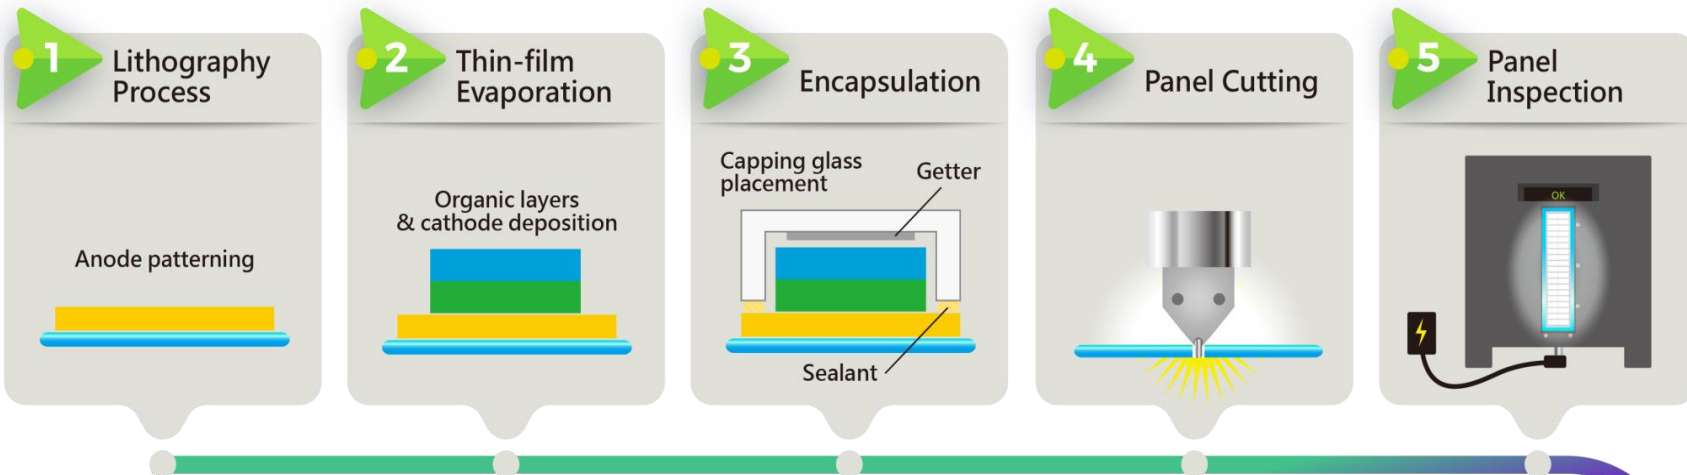

# Certificates

- ✓ ISO 9001: 2015
- ✓ ISO 14001
- ✓ RoHS & REACH compliance
- ✓ IATF16949

# OLED Fabrication Flow

## Panel Process in Taichung RAYSTAR

## Module Assembly in Changshu WINSTAR (China) Or in Taichung RAYSTAR

# Product Lines

## OLED

### Thin / Low Power/ Aesthetic requirement

- Passive Matrix OLED
- 0.49" ~5.5"
- Wide range of product applications
- High Contrast/ Brightness / Wide view angle
- Can replace STN or VFD
- No need for backlight / Low power consumption
- High Tech manufacturing · Price higher than STN
- Thin, colorful/Transparent/ bendable options

## TFT

### Colorful & High- definition requirement

- Colorful display
- 0.96" ~15"
- Custom solution
- Complex to design
- High definition & higher resolution

## System Integration

### Integrated services requirement

- Integrate panels, software, firmware, hardware, and enclosures solutions
- Lower development costs
- Speed time-to-market
- Modularization, reducing customer material inventory.
- Simplify customers' production processes.

## STN

### Simple Display Cheap and easy to use

- Monochrome
- Under 6"
- Wide range of standard items
- Wide range of product applications
- Easy to design
- Cheap and easy to use
- Low MOQ
- Low tooling fee

# OLED - Advantages

## World Patented

COB Character type patented  
Customers can upgrade from STN LCD  
to OLED displays easily.

## Thin

No need for backlight  
Self-emitting

## Low

Power consumption

## Standard items

Up to 1,875 standard items.  
Low MOQ for most of standard  
items (White & Yellow color)

## Industrial Grade

Best product reliability  
10 years supply guarantee

## Fast

Response time  
At " +25°C - 10μ Sec "

## OLED Key Equipment

Raystar has L1, L2, L3, and L4, which are expensive,  
difficult to obtain, and high-quality key evaporation  
equipment needed for future growth momentum.

## High

Contrast  
Brightness

## Wide

Super View angle  
"Up to 175 degree"

## Long

Lifetime

## Wide

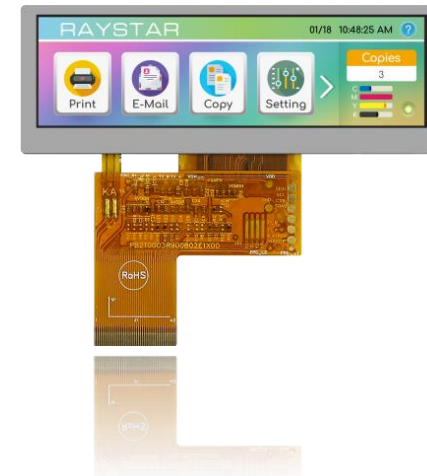

Operation temperature  
"-40 °C ~ +80 °C or 85 °C "

Top: -20°C~+70°C

2023 Q4

RGB

**TFT 5"**  
**(Transflective)**

800×480

Top: -20°C~+70°C

# TFT - Advantages

## Broadest TFT Selection

- Up to 2328 production items
- offering broadest TFT selection

01

## Bar TFT

- The first 5.2" Bar TFT in the global marketplace
- 3.9" Bar TFT by self-produced

03

## Promote items w/o MOQ

- Low-Volume/High-Mix business model
- 90% items without MOQ

05

## Variety Solutions

- Multiple interface options
- Capacitive touch panel options
- Resistive touch panel options

02

## Custom Design

- Control board development
- Custom FPC service
- Semi-custom service
- Custom Touch solution

04

## Industrial applications

- Best product reliability
- 3 years supply guarantee

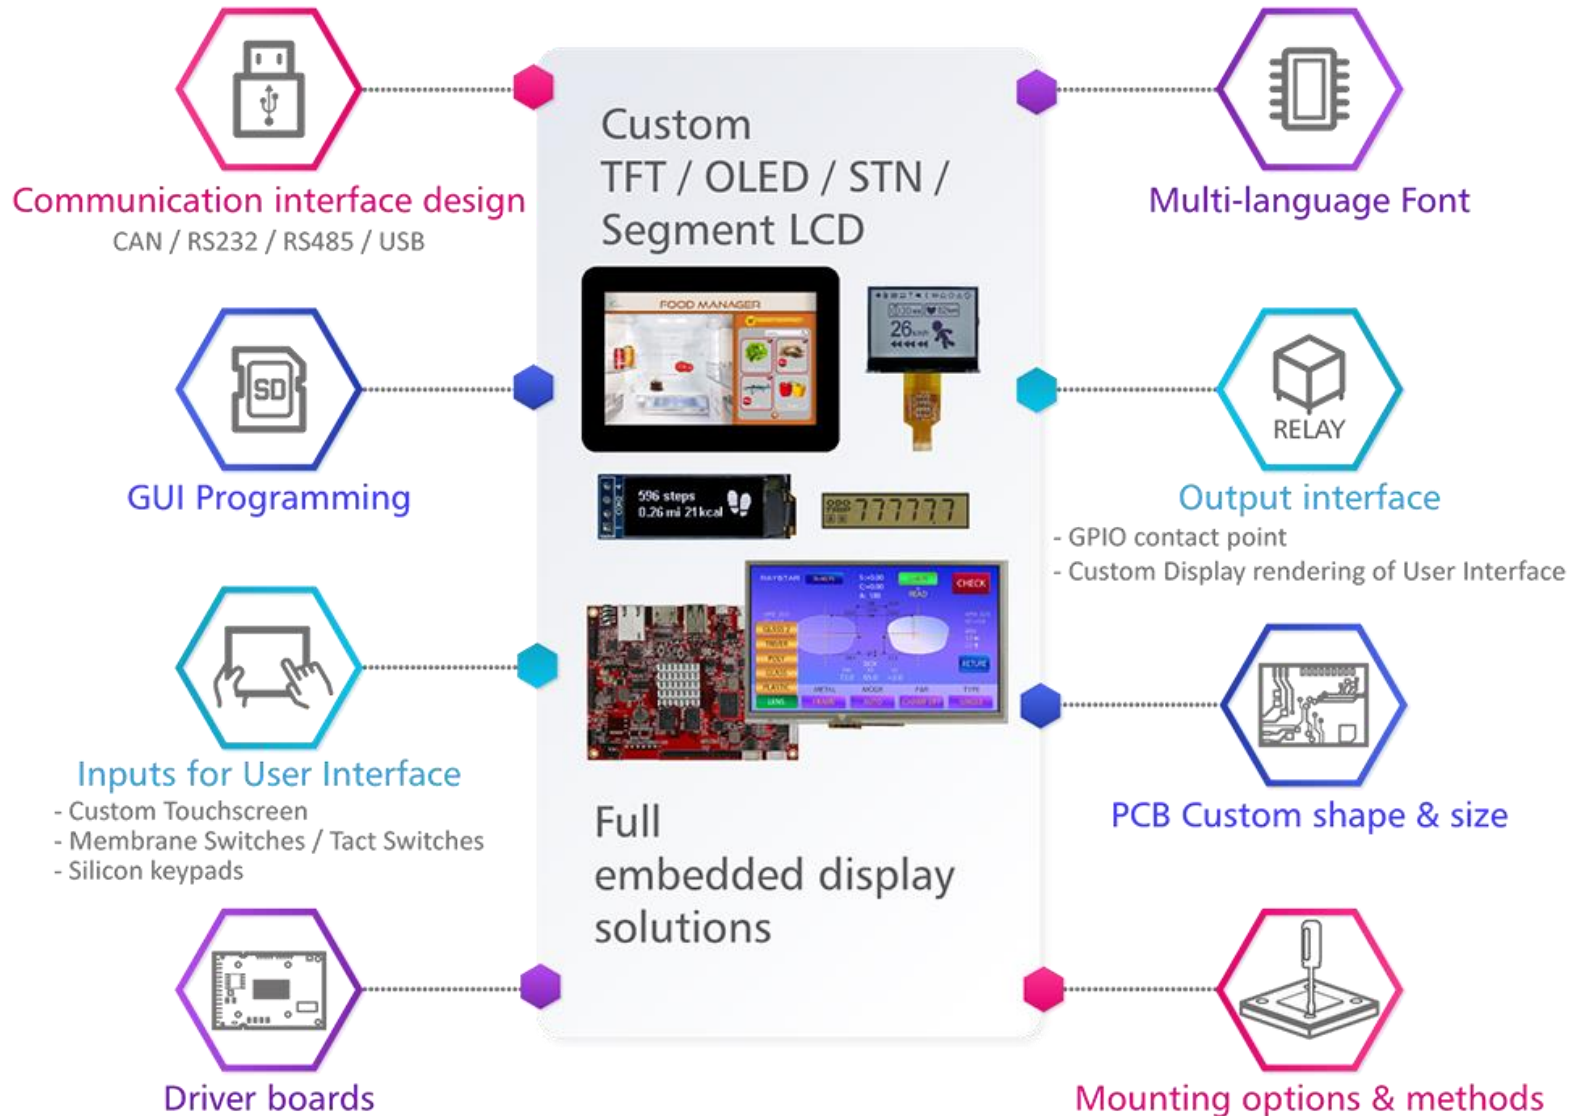

06

Advantage

# System Integrated Solution

# Smart Display Introduction

- A product that integrates display and MCU with UI bundled

- With user friendly SW app. to design your own UI

- Multi-options for panel size and default scenarios

Link to demo video on Raystar website: [Smart Display GUI Builder Demo](#)

# Features of Smart Display

Design without writing a line of code. Speed up the time to market

 Design the UI by Dragging Objects Instead of **CODING ALL DAY LONG**

 Design for Multi-pages by your own

 **Simulate directly without HW device needed**

Wealth and flexible application coverage

- Multi-HOST choice
- Multi-Display Size
- Default 3 types of scenario format

**Raystar can help!**

We can also customize your own display if the above doesn't meet your requirement.

- Hot sale items have no MOQ.

Advantage

# Main Applications

- ▶ Industrial Machine
- Security System
- Telecom Product
- White Goods
- Audio System
- Medical device/Equipment

- ▶ POS System
- Cloud / IoT
- Intelligent Technology
- Wearable Device
- Smart Home
- 3D Printing
- Meter device
- Energy System / Equipment

The background is a solid blue gradient. A diagonal band of a lighter blue color runs from the top-left towards the bottom-right. On the left side, there is a vertical band of a darker blue color. The background is decorated with a pattern of small white dots, some of which are arranged in larger circular clusters. There are also several white geometric elements: a thin white line in the top-left corner, a thin white line in the bottom-right corner, and a thin white line in the middle-right area. Additionally, there are several white circles of different sizes scattered across the background.

# *Core Competencies*

# 12,500 Standard Products

Raystar offers the broadest product selection in the market and the most comprehensive customers worldwide.

- **Four Product Lines:** Raystar is the only display manufacturer worldwide that provides STN, TFT, OLED modules, and System Integration. Our combination of various product portfolios can meet any display needs for customers.
- **Broadest product selection:** With the most comprehensive range of STN/VATN/TFT/OLED display products, a total of about 12,500 models, adopting our standard products, customers can save the tooling cost, lower development cost, and speed time-to-market.
