

Dear Customer,

Delta Elettronica Srl confirms that it has acknowledged and fulfilled its obligations under the REACH Regulation (EC No. 1907/2006), referring specifically to the ECHA update dated 16/07/2019. We hereby declare the following:

- Delta Elettronica Srl does not manufacture the products it sells and therefore does not directly use substances or chemical preparations subject to registration.
- Based on the information currently available, the products we distribute do not contain restricted substances, nor do they exceed any concentration limits set by REACH.
- This information has been provided to us by our suppliers, together with their own declarations of REACH compliance.
- The manufacturers we represent have confirmed that any relevant substances used in their products have been pre-registered within the required deadlines.

We have an agreement with our suppliers that any changes concerning the presence or classification of substances will be communicated to us in a timely manner.

Consequently, our customers will also receive written notification of any such changes, as appropriate.

Best regards,

Delta Elettronica Srl
