ABOUT US

THE WORLD OF **ELETRONICS** IN A BRAND

Active on the Italian market since 1978, Delta Elettronica is now a reference point in the distribution of electronic components, industrial PCs and LCD solutions, consolidating a prominent position in the sector over time.

Through long-standing partnerships with top-tier manufacturers and a well-established network of international distributors, Delta Elettronica ensures constant access to the global electronic components market, offering its customers reliability, quality and innovation.

Headquartered in Lombardy, Italy, Delta Elettronica benefits from a strategic location that enables efficient reach across Central Europe, strengthening its role as a trusted partner in the international electronics industry.

THE BUSINESS

THREE PILLARS. A COMMITMENT

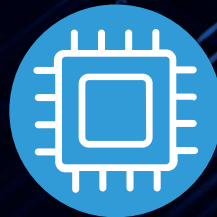

Delta Elettronica's business is based on three areas of interest that together offer value, expertise, and solutions across the electronics world.

01

TRADE REPRESENTATION FOR ITALY AND EUROPE

Delta Elettronica operates as a trusted business partner, managing representation and distribution agreements with leading European and Asian electronics manufacturers. With a well-established market presence and deep industry knowledge, it ensures qualified commercial support and effective liaison between manufacturers and customers.

02

DISTRIBUTION OF ELECTRONIC COMPONENTS

Through a global network of qualified partners, Delta Elettronica offers access to a broad portfolio of electronic components. The company also specializes in researching and sourcing obsolete or hard-to-find components, helping ensure business continuity and efficiency in its customers' supply chains.

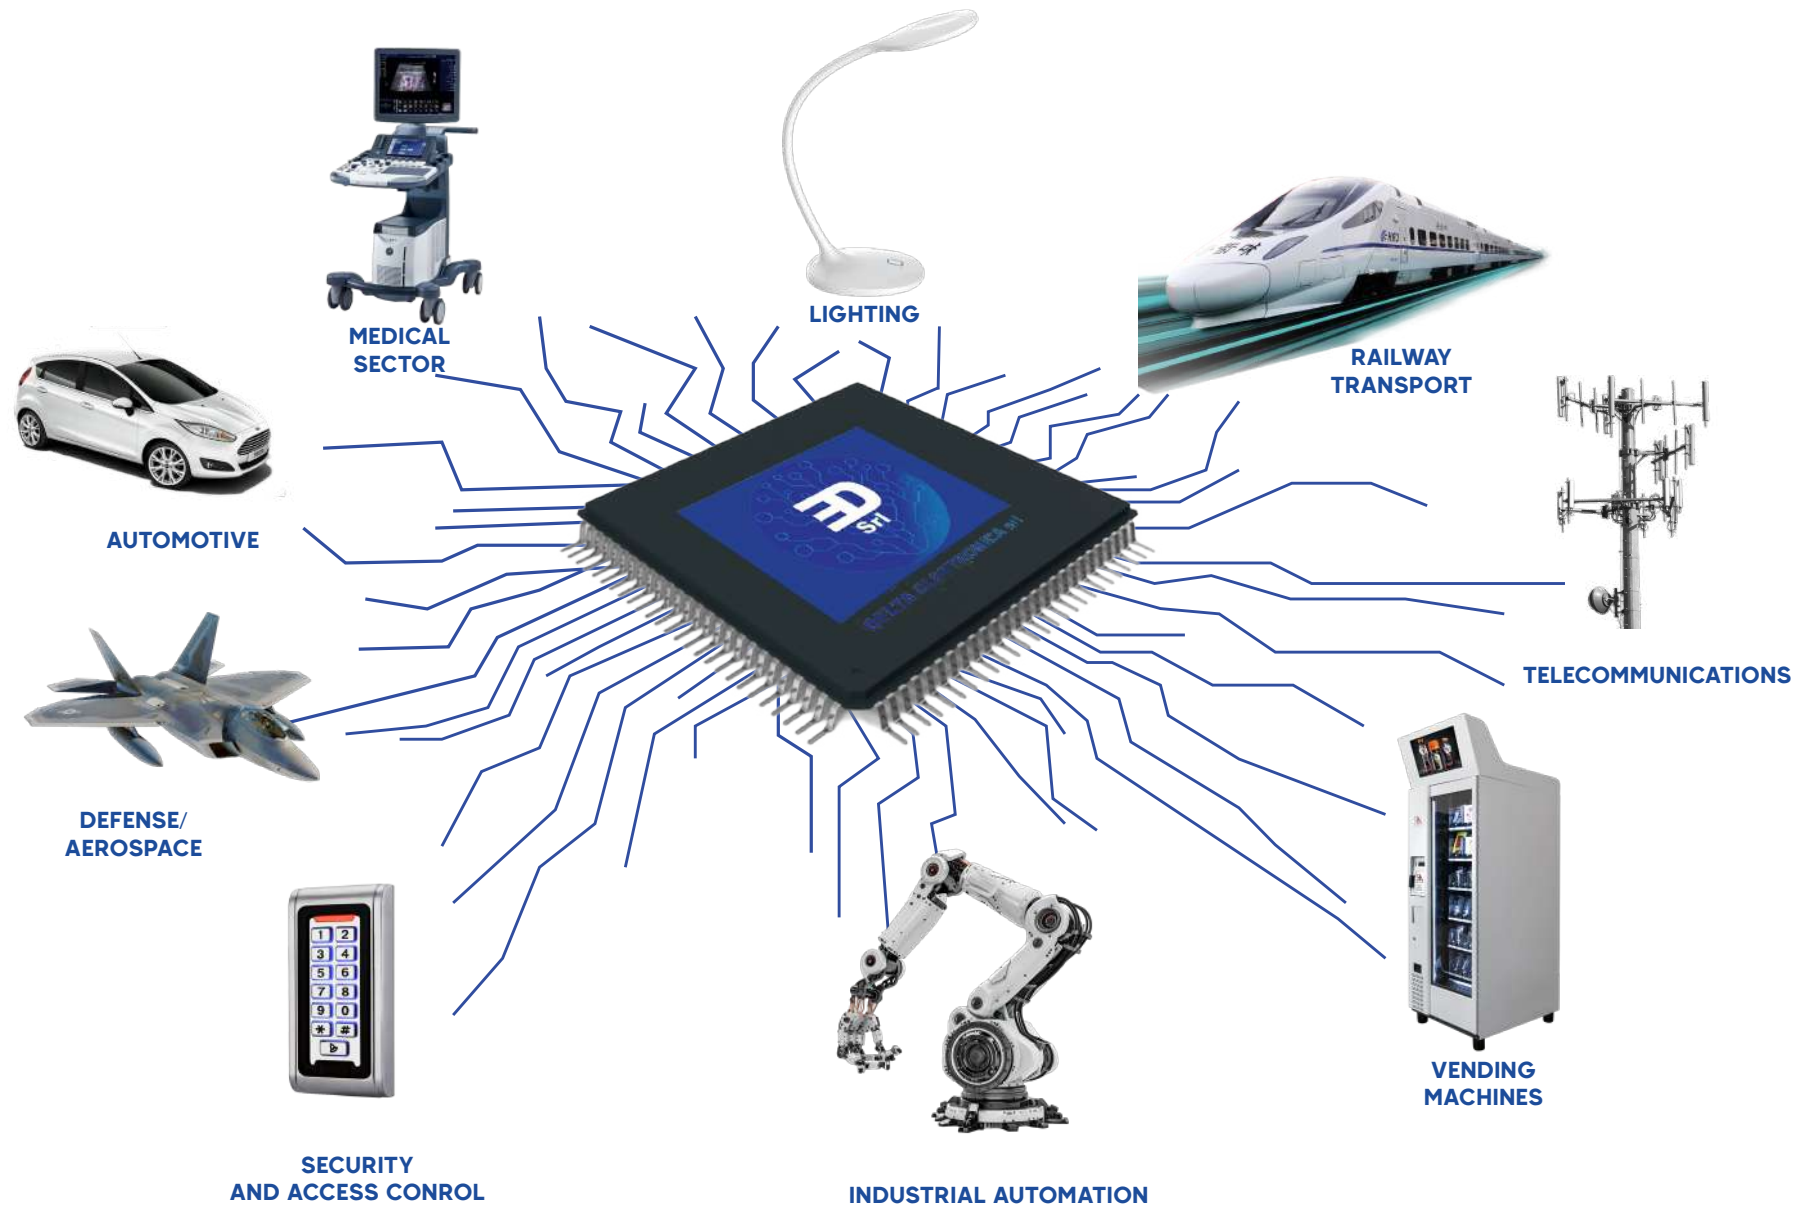

03

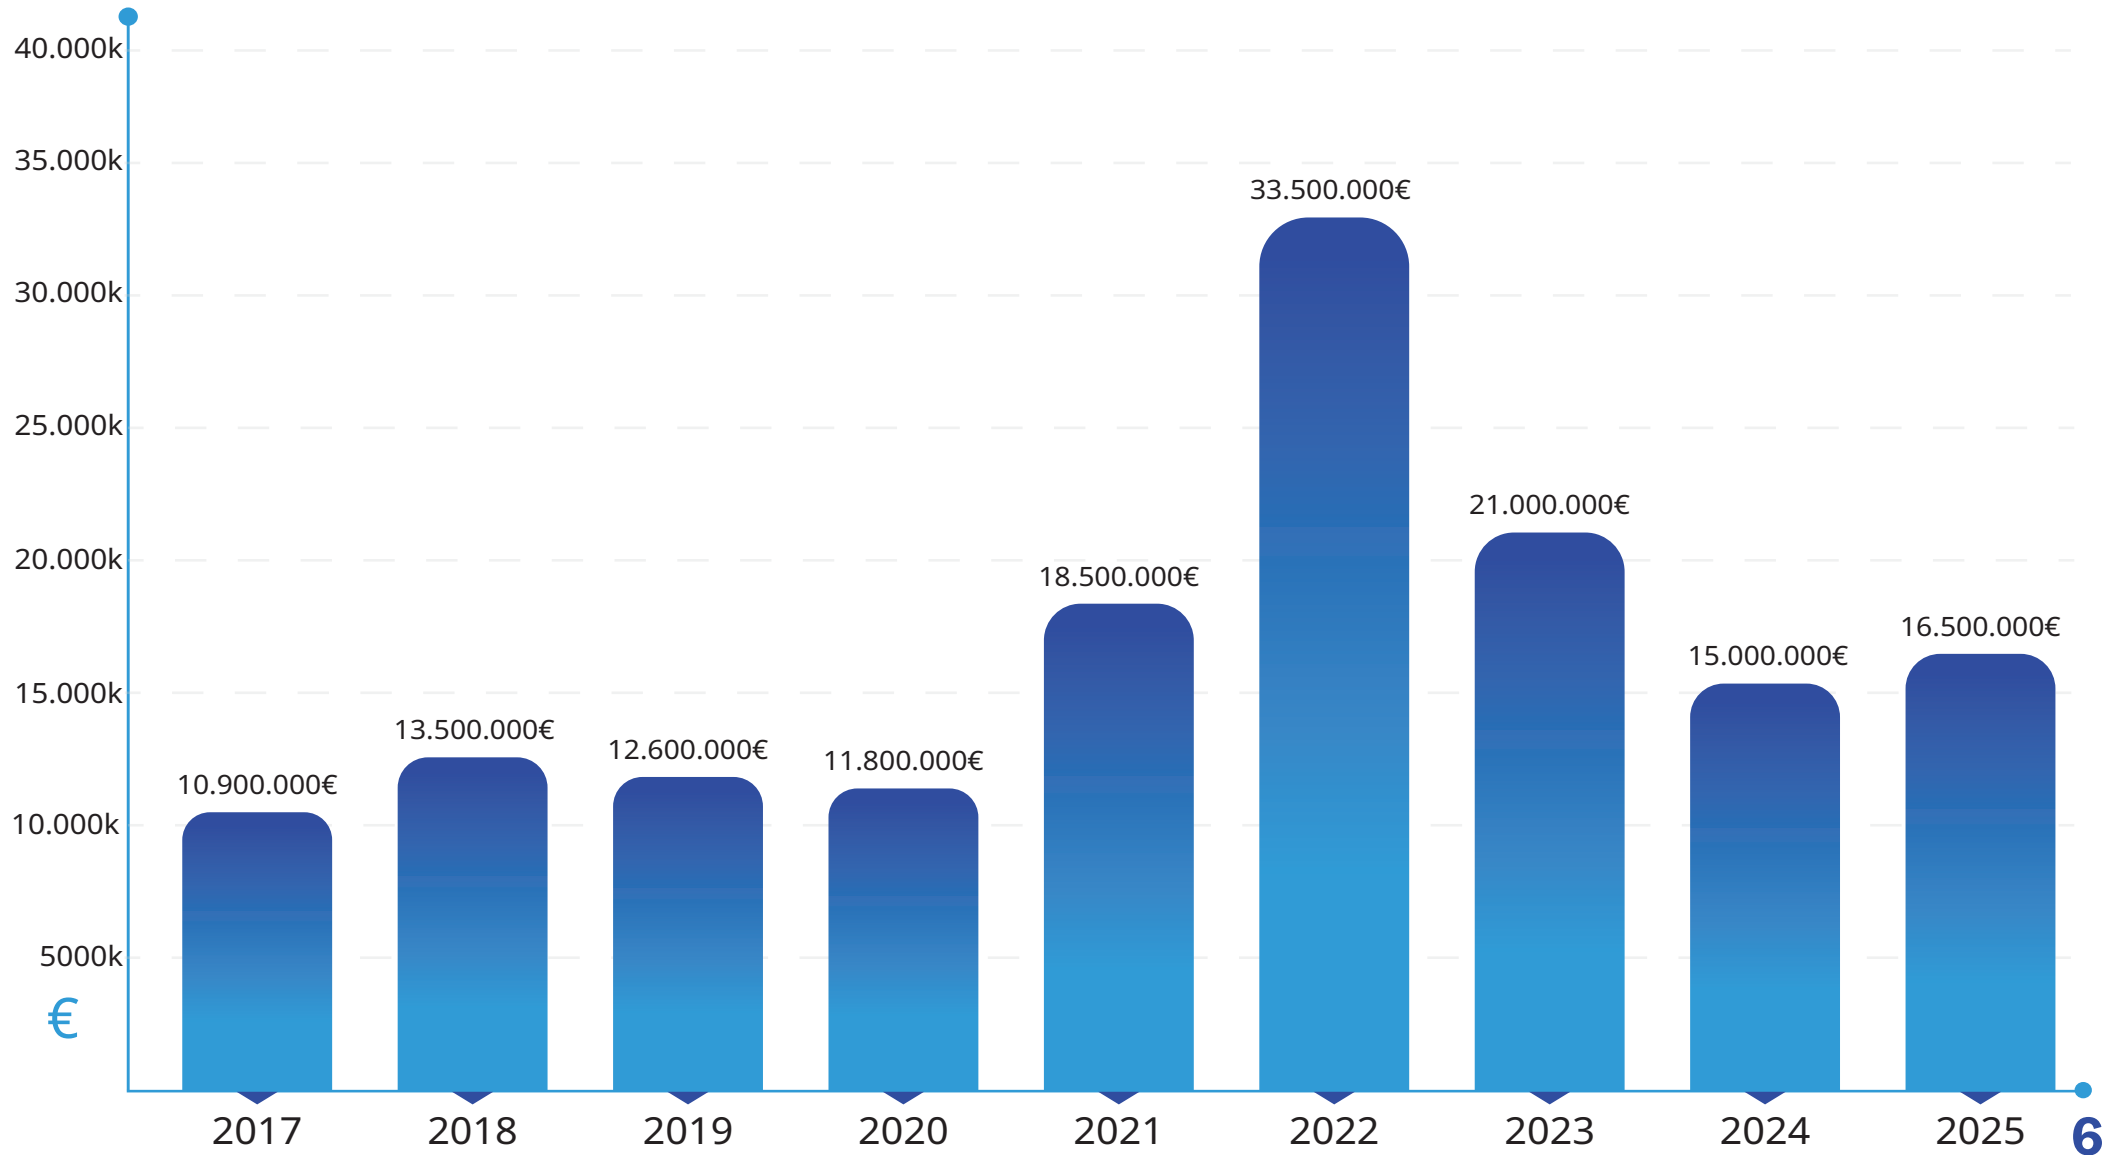

INDUSTRIAL PCS & IT SOLUTIONS

Drawing on decades of industry experience, Delta Elettronica designs and supplies industrial PCs, embedded systems, network appliances, and advanced IT solutions. Its solutions stand out for their reliability, high performance and customization possibilities, responding to the needs of the most complex industrial applications.

MARKET PERFORMANCE

ACTIVE FRANCHISED BRAND

Photo coupler - Photo Triac
SSR Mosfet output
Reed relay - Solid State Relay
Proximity sensors

Operational amplifiers
Comparators
LDO and Power Management
DC/DC converters
MOSFET
Bipolar transistors
Diodes and rectifiers
LED driver
CMOS Logics

Discrete components
Diodes & rectifier
Transistor MOSFETs
Bridge Rectifier

Bare Die
Mosfet
Power Moudules
SIC - IGBT

APM32 MCU ARM® CORTEX®
(Industrial and Automotive grade)
BLE 5.1 SoC
Securrry SoC Platform

OPAMP & Comparator
Audio/Video Driver
Analog Switch
Logic IC/ Power
management

Voltage regulator
Step up/Step down Switching reg
Interface - Current Driver - Logic
LDO-VLDO - CMOS ULDO Regulator

Optocouplers
Optoswitces
Solid State Relays

Digital isolators
Isolated Interface Amp/ADC
Isolated Power Supply
Isolated CAN/LIN/SBC RS 485/422/232
Motor Driver - LED Driver - Gate Driver

Diodes
Transistors
Bridge Rectifier

Discrete components
Diodes & Rectifier
Bipolar Transistor
IGBTs
MOSFETs
Amplifiers & Comparatos Power Management

FOCUSED LINES

PASSIVE FRANCHISED BRAND

Buzzer and Trasducers
Alarms and Sirens
Piezoceramic Speakers & Amplifiers

Switch - encoder
Illuminated switch
Touch sensitive switch
Oled switches

PCB and solid Relays
Industrial and Power Relays
Time switch
Modular contactors

Connector Wire to board
Pin Header, D-SUB, RJ11 RJ45
Card Edge, Mini PCI, SIM & SD Card
Mini DIN, DVI, HDMI,
Automotive, PC104, PC104 plus.
Round Connectors 1394-DIN 41612

Female connector male
Connector Terminat block
THT/SMD (Reflow)

Aluminium Electrolytic Capacitors
Film Capacitors
Ceramic Trimmer Capacitors
Super Capacitors

Real Time Clock
Crystal resonator
TCXO - SPXO - OCXO
All-silicon Oscillator

Power inductors, common choke
Ferrite beads, RF inductors
Current-disensing transformers
Gate Drive Transformers
LAN transformers, wireless power components
Customized magnetic components and power modules

Connectors
and connection parts

EMBEDDED SOLUTIONS

For over 20 years, Delta Elettronica has been designing and building high-performance industrial PCs, embedded solutions, and standard and custom LCD display systems, developed to ensure maximum reliability and business continuity even in the most complex environments. Through established partnerships with leading global manufacturers, the company provides rugged systems, customizable hardware platforms, and custom-made display solutions certified for industrial, automotive, medical, rail, and defense applications.

ASUS PE1000U Rugged Fanless DIN-Rail Industrial PC for AMR, Robotics, and Computer Vision

ASUS IoT

Customized Industrial Display Solutions

PE1100N Intelligent Edge AI System with NVIDIA Jetson™ Orin™ NX and Orin™ Nano
